Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: Claims 1 and 4 are allowable because the prior art of record fails to disclose or suggest or teach the recited inlet side switching valve for opening and closing a refrigerant path on the refrigerant inlet side of the indoor heat exchanger; and an outlet side switching valve for opening and closing a refrigerant path on the refrigerant outlet side of the indoor heat exchanger; wherein both the switching valves open the refrigerant paths by the use of the pressure produced by the compressor and close the refrigerant paths by the use of the elastic means when the compressor comes to a stop (see claim 1); opens and closes refrigerant paths on a refrigerant inlet side and a refrigerant outlet side of the indoor heat exchanger; comprises valve elements for opening and closing the refrigerant paths, elastic means for exerting an elastic force on the valve elements in such a direction to close the refrigerant paths, and a valve body making up, together with the valve elements, back pressure chambers communicating with the suction side of the compressor; and has a construction in which the refrigerant paths are opened when the valve elements are displaced in such a direction to reduce the volume of the back pressure chambers.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
